Literacy as Liberation Culminating Project

Based on your learning throughout the unit, develop a creative product that demonstrates your view of what literacy is and what its relationship is to liberation. The product you complete is up to you. It could be a painting, a poem, a video, a dance, a podcast, a collage, a song- almost anything your heart desires. The expectation is that all students will be able to creatively detail the connections literacy has to the ability of people to advocate for their own personal, familial and community needs.

You must, however, be sure to include the following:

- Definition of literacy
- Examples of types of literacy
- How literacy is related to ideas of liberation
- Evidence from texts that have been used in this unit
