

Choose a quote from the chapter (a minimum of 2/3 sentences) that speaks to you that will anchor your mini-podcast and info-graph. You will be reading this quote at the beginning of the mini-podcast and placing inside your info-graph – this quote is your anchor.

You are going to use this concept map to explore/brainstorm/dream/imagine all of the ideas that flow from your chosen quote. The quote sits at the center of the concept map and you will now brainstorm all of the ideas that flow from it . . . personal, political, economic, community, shopping, etc.

Why are Black communities targeted by sugar and how does the way food companies view us impact the things that are available to us in stores.

How I connect to this quote and how my community faces similar problems that was discussed in the text.

How does food distribution affect people as a community and individually?

How the economy and location of food corporations play along role in the food that Black people see in stores.

How sugar and unhealthy food impact Black households.

How is healthy food priced compared to junk food? How does food advertisement affect the price range.

Advertisement from food companies targets Black youth with unhealthy foods (candy, sugary drinks, and snacks)
